

City Keyosk presents ingreatfalls.com

Introducing ingreatfalls.com, the best way to get your message out to tourists staying in the cities top hotels. We have placed touchscreen information kiosks in lobbies of our 11 current participating hotels. Each hotel is given a unique mobile website that is branded with the hotel's own logo and colors and information (e.g. holidayinn.ingreatfalls.com). This gives the hoteliers a personalized travel guide to help their guests find local restaurants, shops, and services while City Keyosk maintains the content. Restaurants and other businesses can sign up for a free simple listing to get started advertising. Businesses can then *upgrade* their listing for a fee to get displayed on the idle-time digital signage and also to customize their [ingreatfalls](http://ingreatfalls.com) page with custom content.

For \$10 per month per hotel you may *upgrade* your simple listing to display the following information on our digital signage and on each hotel's custom mobile website:

- your address + directions
- your phone number
- 3 photos with captions
- your choice of colors
- a map to your location(s) with optional streetview
- placement in our rotating digital signage

optionally you can upload your own custom content:

- feature multiple business locations / maps
- show YouTube videos (your commercials!)
- upload your PDF documents (like restaurant menus!)
- add 360° panoramas to show off your venue from all angles
- add your custom updatable Google Calendar (your events!)
- add custom coupons to drive traffic
- embed your website* directly on your kiosk page
